Environment

Impact on score ●●○○

Labor & Human Rights

Impact on score ●●●●

Ethics

Impact on score ●●○○

Sustainable Procurement

Impact on score ●○○○

Policies indicator

Impact on score ●●●●

A policy is a set of objectives that addresses specific sustainability issues. It shows a company's intention to reduce impact, mitigate risk or improve performance.

Endorsements indicator

Impact on score ●○○○

Endorsements are your partner's public adherence or commitment to meeting objectives and principles defined by a recognized third-party organization.

Measures indicator

Impact on score ●●●●

Measures are your partner's actions to support your sustainability policies and commitments.

Certifications indicator

Impact on score ●●●○

Certifications confirm your partner's compliance with international standards (for example, ISO 14001). They must be issued by an external certification body.

Coverage indicator

--

Coverage means the level of deployment of measures and certifications throughout your partner's company. It's a multiplying factor. The higher it is, the higher score will be given to the Measures and Certifications indicators.

Reporting indicator Impact on score ●●●○ ▼

Reporting is based on quantitative KPIs that measure your partner's implementation of sustainability practices.

360° Watch indicator Impact on score ●●●● ▼

The 360° Watch Findings indicator is scored based on the data we gather by scanning thousands of sources in the public domain. This allows us to get a broader overview of your partner's sustainability management.

General comments ^

There is a lack of information and supporting documents on implementation measures regarding environmental issues.

Although the company has formalized policies regarding ethics issues, there is a lack of information on associated measures.
